On June 2, 2023, Xi Jinping's speech at the Symposium on cultural inheritance and development

第一章 | 品牌介绍

BRAND INTRODUCTION

鲁班——中国建筑鼻祖木匠鼻祖

Lu Ban The originator of Chinese architecture and carpenter

鲁班，中国古代建筑工匠。姓公输，名般，生活在春秋末期到战国初期，出身于世代工匠的家庭，从小就跟随家里人参加过许多土木建筑工程劳动，逐渐掌握了生产劳动的技能，积累了丰富的实践经验。

据说木工师傅们用的手工工具，如钻、刨子、铲子、曲尺，划线用的墨斗，据说都是鲁班发明的。

2400 多年来，他被后世建筑工匠、木匠尊为“祖师”，鲁班的名字实际上已经成为古代劳动人民智慧的象征。

Lu Ban, an ancient Chinese architectural craftsman. He lived from the end of the Spring and Autumn Period to the beginning of the Warring States period. He was born in a family of artisans. Since he was a child, he has followed his family to participate in many civil and construction works, and gradually mastered the skills of production labor and accumulated rich practical experience.

It is said that the hand tools used by woodworkers, such as drills, planers, shovels, ruler, and ink fountain for marking, are said to have been invented by Lu Ban.

For more than 2,400 years, he has been revered as the "patriarch" by later generations of construction craftsmen and carpenters, and his name has actually become a symbol of the wisdom of the ancient working people.

02 | 品牌
口号 | CULTURAL
SLOGAN
Luban Cabin

ARCHITECTURE FROM FUTURE,
WAITING FUTURE YOU.
来自未来的建筑，等待未来的你。

未来建筑的美好，只有试过才能领会。
鲁班筑未来“星”总有一颗属于“你”

The beauty of the future architecture can only be understood by trying.
There is always a star for you.

“鲁班”中国古代建筑工程家，被建筑工匠尊为祖师，民间亦称百工师祖，鲁班筑的名字就依此而来。

近年来在西方强势文化的冲击下，许多独属于东方的信仰逐渐淡出人们的视野变得模糊。而信仰是每份职业的动力源泉，行业也因为信仰才能聚在一起，所以在这个时代，我们要重塑行业的信仰和匠人精神。

且目前建筑行业最高奖项称为“鲁班奖”，我们新时代的创业者应以匠心传承，对以鲁班为代表的中国古代工匠表达敬畏与尊重。

品牌的标志也呼应主题，提取火把和人的造型元素，着重体现薪火相传的精神。

中文标志采用规整的方体字，笔画平直流畅，边角方，在字体设计中融入建筑美学，突出建筑硬朗的感觉，凸显鲁班筑品牌沉淀积累的品牌调性。在英文设计中，更着重体现科技感和未来感，转折圆滑，字体轮廓简洁连续，方便后续应用的同时赋予产品科技感。

此标志由品牌象征图形和中英文共同组成，更易于辨识和推广。充分体现鲁班筑品精益求精，不断推敲改进的匠心精神。

"Lu Ban" was an ancient Chinese architectural engineer, respected by architectural craftsmen as the ancestral teacher, and the folk also called the patriarch of the hundred workers, the name of Luban Cabin comes from this.

In recent years, under the impact of the strong Western culture, many unique eastern beliefs have gradually faded out of people's vision and become blurred. Faith is the driving force of every profession, and the industry can get together because of faith, so in this era, we have to reshape the faith and the spirit of craftsmanship in the industry.

At present, the highest award in the construction industry is called "Luban Award". Entrepreneurs in our new era should inherit the ingenuity and express awe and respect for the ancient Chinese craftsmen represented by Luban
The logo of the brand also echoes the theme, extracting the styling elements of torches and people, focusing on the spirit of torch generation.

The Chinese logo adopts regular square characters, straight and smooth strokes, and square edges and corners. Architectural aesthetics are integrated into the font design, highlighting the feeling of architectural rigidity and highlighting the brand tonality accumulated by Luban-zhu brand.
In the English design, more emphasis on reflecting the sense of science and technology and the sense of the future, the turning point is smooth, the font outline is concise and continuous, which is convenient for subsequent application while giving the product a sense of science and technology.

This logo is composed of brand symbol graphics and Chinese and English, which is easier to identify and promote. It fully embodies the craftsmanship spirit of Luban building products and continuous improvement.

知名品牌 国际范儿足

FAMOUS BRAND INTERNATIONAL STYLE FOOT

在国内外大力投入市场建设，积极参加各类行业展会和交流活动，加强宣传和推广，取得了良好的市场口碑和品牌影响力。

At home and abroad to invest in the market construction, actively participate in various industry exhibitions and exchange activities, strengthen publicity and promotion, achieved a good market reputation and brand influence.

集团公司 交付力强

THE GROUP COMPANY HAS STRONG DELIVERY CAPACITY

交期快，交付力强，我们拥有现代化的生产工艺和设备，以及一支经验丰富的制造团队，可以保证生产效率和品质，保证客户的订单得到及时交付和完美呈现。

Fast delivery, strong delivery, we have modern production technology and equipment, as well as an experienced manufacturing team, can ensure the production efficiency and quality, to ensure that customers' orders are delivered in time and perfect presentation.

模块生产 拆装省心

MODULE PRODUCTION AND DISASSEMBLY WITHOUT WORRY

灵活定制，生产力强，我们采用按需定制设计方式，通过深入了解客户需求，量身定制产品款式，为客户提供个性化且优质的定制服务。

Flexible customization, high productivity, we adopt the way of on-demand design, through in-depth understanding of customer needs, tailor-made product styles, to provide customers with personalized and high-quality customized services.

模式共享 代理轻松

PATTERN SHARING AGENTS EASILY

我们为合作伙伴提供代理模式合作，让伙伴可以轻松地销售我们的产品，并给予售后服务等支持。我们始终秉持贴近客户的理念，帮助合作伙伴在业务拓展中更加高效和无忧。

We provide partners with agency mode cooperation, so that partners can easily sell our products, and give after-sales service and other support. We always adhere to the concept of close to customers, to help partners in business development more efficient and worry-free.

04 | 企业简介 | COMPANY PROFILE

LUBAN·CABIN

热爱未知，比如宇宙和清晨。

未来建筑的美好，只有试过才能领会。

鲁班筑未来舱，随意打开全世界某处的一扇窗户。

鲁班筑未来舱是山东无穷大景观工程有限公司创新打造的智能装配式建筑品牌。其生产的移动房屋产品能够突破各类地形限制，以满足文旅地产、核心景区、商业配套、房车营地等领域在度假、旅宿、商业、居住等方面的需求，自 2018 年以来极大的推动了国内外营地文旅营地的发展，产品工业化风格强烈的外观设计语言引领了高端营地市场的潮流。

公司拥有研发、设计、制造和场景应用等综合能力，自主研发了超低水、电、暖能耗体系，应对资源短缺景区。产品核心质保 30 年，并有 PICC 运输保险以确保货物安全抵达施工现场。

鲁班筑未来舱星舰、星云、星图等系列产品，已累计为国内外 50 多家营地景区提供个性化定制方案，其中北京国际酒店 100 台、武汉广水月光岛 100 台，河南云台山 200 台，产品远销德国、美国、日本、韩国、加拿大等十多个国家。

在产品技术层面，我司荣获 ISO9001 质量体系、国际 SGS、TUV 实地验厂、产品结构安全性检测、产品 CE 等多项认证，拥有产品发明专利、实用新型专利、外观专利等 130 余项。

LUBAN CABIN 鲁班筑品牌核心创始团队均为国际视野及留学背景的专业人才，鲁班筑团队以互联网 + 建筑科技为核心，整合了营地策划咨询、景观规划、工业设计、室内设计、机械加工各领域的能力，是目前在营地住宿装备行业研发能力最全面的团队。在产品交付上，LUBAN CABIN 鲁班筑现自有工厂占地总面积约 200000 平方米，生产过程中全部采用国内先进设备生产加工，流水线一体化生产，月交付量可达 200 套以上，大多数产品可以实现三天出样，十天交付。产品拥有追溯体系，提供永久维修技术指导。

支持个性化定制，出厂即是成品，现场接通水电即可使用，极大的加快了交付效率，最大程度的杜绝现场工程对环境的破坏，真正的实现了文旅项目的生态开发。

鲁班筑虽然不是真正的家，却做到了“家”做不到的事情。

Luban Cabin is an intelligent prefabricated building brand innovated by Shandong Infinity Landscape Engineering Co., LTD. The mobile house products produced by the company can break through all kinds of terrain restrictions to meet the needs of tourism real estate, core scenic spots, commercial facilities, RV camps and other fields in terms of vacation, accommodation, business, and residence, which have greatly promoted the development of domestic and foreign camps since 2018. Product industrial style strong design language leads the trend of high-end camp market.

The company has comprehensive capabilities of research and development, design, manufacturing and scene application, and has independently developed ultra-low water, electricity and heating energy consumption systems to cope with resource shortage scenic spots. Product core warranty 30 years, and PICC transportation insurance to ensure the safe arrival of goods to the construction site.

Luban Cabin Building future cabin starship, Nebula, star map and other products have provided personalized customized solutions for more than 50 camp scenic spots at home and abroad, including 100 Beijing International Hotel, 100 Wuhan Guangshui Moonlight Island, 200 Yuntai Mountain, Henan Province, products are exported to Germany, the United States, Japan, South Korea, Canada and other more than 10 countries.

In terms of product technology, our company has won ISO9001 quality system, international SGS, TUV field inspection, product structure safety testing, product CE and other certifications, and has more than 130 product invention patents, utility model patents, appearance patents and so on.

The core founding team of LUBAN CABIN brand are all professionals with international vision and overseas study background. With Internet + building technology as the core, Luban Cabin

team integrates the capabilities of camp planning and consulting, landscape planning, industrial design, interior design, and mechanical processing, making it the most comprehensive team in the camp accommodation equipment industry. In terms of product delivery, LUBAN CABIN now has its own factory covering a total area of about 200,000 square meters. In the production process, all domestic advanced equipment is used for production and processing, and the production line is integrated. The monthly delivery volume can reach more than 200 sets. Products have a traceability system to provide permanent maintenance technical guidance.

Support personalized customization, the factory is the finished product, the site is connected to water and electricity can be used, greatly speeding up the delivery efficiency, the maximum extent to eliminate the site engineering damage to the environment, the real realization of the ecological development of cultural tourism projects.

LUBAN·CABIN

05 | 组织架构 | ORGANIZATIONAL STRUCTURE

团队领袖

Team leader

项玉庭

LUBAN CABIN（鲁班筑）品牌创始人

项玉庭是一位具备远见和创新精神的年轻 80 后杰出企业家，深信科技和创新是推动社会进步和企业发展的动力。他拥有丰富的工程背景和技术实力，以及对市场趋势和用户需求的敏锐洞察力，这使他成为太空舱领域的先驱者。

项玉庭在 2013 年与何倩倩共同创建了山东无穷大景观工程有限公司，这是国内钢结构房屋的全新模式。他发现传统的砖混结构房屋难以满足现代人的生活需求和环保要求，但是市场上的钢结构房屋又存在装饰效果不佳、难以施工、价格高昂等问题。于是他开始思考如何将钢结构房屋做到更好。

作为创业公司的创始人之一，项玉庭主要负责产品的生产和设计，他在产品设计和工艺制造上投入了大量精力，独创了一套全新的移动民宿解决方案 - 鲁班筑未来舱，实现了规模快速的生产，同时兼顾了装饰效果和环保的要求。这一次的创新引领了行业潮流，鲁班筑未来舱在中国市场上逐渐得到认可和推广，成为了他的又一次商业成功。

作为一个成功的企业家，他注重生产设计团队建设，吸引了一批优秀的工程师加入了团队，并且带领团队不断探索和创新，推动了公司生产的高速发展。项玉庭通过自己的创业历程和成功经验，不断激励和促进年轻人的创新和创业，为中国的企业发展做出了应有的贡献。

Xiang Yuting is a visionary and innovative young post-80s entrepreneur who believes that science and technology and innovation are important driving forces for social progress and enterprise development. His extensive engineering background and technical prowess, as well as his keen insight into market trends and user needs, have made him a pioneer in the space capsule field.

Xiang Yuting co-founded Shandong Infinity Landscape Engineering Co., LTD with He Qianqian in 2013, which is a new model of steel structure housing in China. He found that the traditional brick-concrete structure of the house is difficult to meet the needs of modern life and environmental protection requirements, but the steel structure of the market has poor decorative effect, difficult construction, high price and other problems. So he began to think about how to make steel buildings better.

As one of the founders of the startup company, Xiang Yuting is mainly responsible for the production and design of products, he has invested a lot of energy in product design and process manufacturing, and created a new set of mobile homestays solution -Luban Cabin future cabin, to achieve rapid production on a scale, while taking into account the decorative effect and environmental protection requirements. This innovation has led the trend of the industry, and Luban's future cabin has gradually been recognized and promoted in the Chinese market, becoming another commercial success for him.

As a successful entrepreneur, he paid attention to the construction of production design team, attracted a group of excellent engineers to join the team, and led the team to constantly explore and innovate, which promoted the rapid development of the company's production. Through her own entrepreneurial process and successful experience, Xiang Yuting has constantly encouraged and promoted young people's innovation and entrepreneurship, and made due contributions to the development of Chinese enterprises.

何倩倩

LUBAN CABIN（鲁班筑）品牌创始人

何倩倩是一位有着敏锐商业嗅觉和创新思维的 80 后女企业家。在公司发展期间，她深入研究了全球市场，发现了家庭式旅宿这一新兴市场的巨大潜力。她意识到人们出门旅游时对住宿的需求不仅仅是简单的实用和舒适，更多的时候是对独特体验和家庭氛围的渴望。

作为创业公司的创始人之一，何倩倩主要品牌运营推广，国内外市场开发及销售，需要面对大量的困难和挑战。她需要不断地寻找新的市场机会、研发新产品、招募人才和筹集资金等等。并且在创业过程中，她明白遇到的困难和挑战只是前行路上的一种常态，用坚定的信念和持续的努力来克服一切，作为一位领袖，她总是能够引领团队不断成长和壮大。

在创立无穷大景观工程有限公司之后，何倩倩并没有满足于创建一个移动舱室的品牌。她看到了更广阔的发展机会，于是在 2016 年与项玉庭共同创立了移动民宿品牌“鲁班筑未来舱”，推出了一系列个性化移动民宿产品。

经过多年的发展，产品覆盖全球众多国家和地区，今天，鲁班筑未来舱已经成为了中国移动民宿行业的领军企业之一。

He Qianqian is a post-80s female entrepreneur with a keen business sense and innovative thinking. During the company's growth, she researched the global market in depth and saw great potential in the emerging market of family-style lodging. She realized that people's needs for accommodation when they travel are not only practical and comfortable, but also a desire for unique experiences and a family atmosphere.

As one of the founders of the startup company, He Qianqian's main brand operation and promotion, domestic and foreign market development and sales, need to face a lot of difficulties and challenges. She needs to constantly find new market opportunities, develop new products, recruit talent and raise capital. In the process of entrepreneurship, she understood that the difficulties and challenges she encountered were just a normal condition on the way forward. She overcame everything with firm faith and continuous efforts. As a leader, she could always lead the team to grow and grow.

After founding Infinity Landscape Engineering Co., LTD., He Qianqian was not satisfied with creating a mobile cabin brand. She saw a broader opportunity for development, so in 2016, she and Xiang Yuting co-founded the mobile homestay brand "Luban Cabin" and launched a series of personalized mobile homestay products.

After years of development, its products cover many countries and regions around the world. Today, Luban Cabin has become one of the leading enterprises in China's mobile homestay industry.

EXCHANGE AND STUDY WITH MR. CAO DEWANG

与曹德旺先生交流学习

鲁班筑品牌创始人何倩倩为移动舱民宿寻求更合适的发展道路，向曹德旺先生请教学习。

此次交流学习针对如何拓展移动舱民宿经济市场，怎么规划企业道路展开深刻的讨论，在目前看来，移动太空舱民宿顺应人们旅游消费的需求，多样化和有趣的住宿体验打破传统的住宿方式带来的局限性，随着国内旅游市场的不断扩大，移动民宿的应用场景也变得更加多样化。无论是山林、海滩还是城市，都可以看到移动民宿的身影。这也为移动民宿的发展提供了更多的机遇。

太空舱酒店在经历了几年的大规模扩张后，全球快捷酒店已经感受到太空舱酒店给其带来的威胁：短短 5 年时间已发展至遍布全球，未来 10 年内将快速地席卷整个酒店行业，将把整个国内的酒店行业重新分配。

从前的连锁酒店代表着一种时尚潮流，受到商务人士。据统计，自 2016 年开始每年不少于 800 万的毕业大学生往城市找工作，这些经济能力相对较低的毕业生为太空舱酒店带来了巨大的商机。

此外，随着国内高铁的巨大延伸，机场的扩容，优质便捷的太空舱酒店开始进驻这些客源丰富的场所；医院、托儿园、电竞网吧等特色太空舱酒店也将遍地开花，市场潜力巨大。

作为企业的带领人，也将把握机遇，抓住市场，带领好企业前进的方向，用努力和智慧将这份事业做大做强。

Architecture from future
waiting future you.

LUBAN·CABIN

He Qianqian, the founder of Luban Cabin, sought a more suitable development path for the mobile cabin and asked Mr. Cao Dewang for advice and learning.

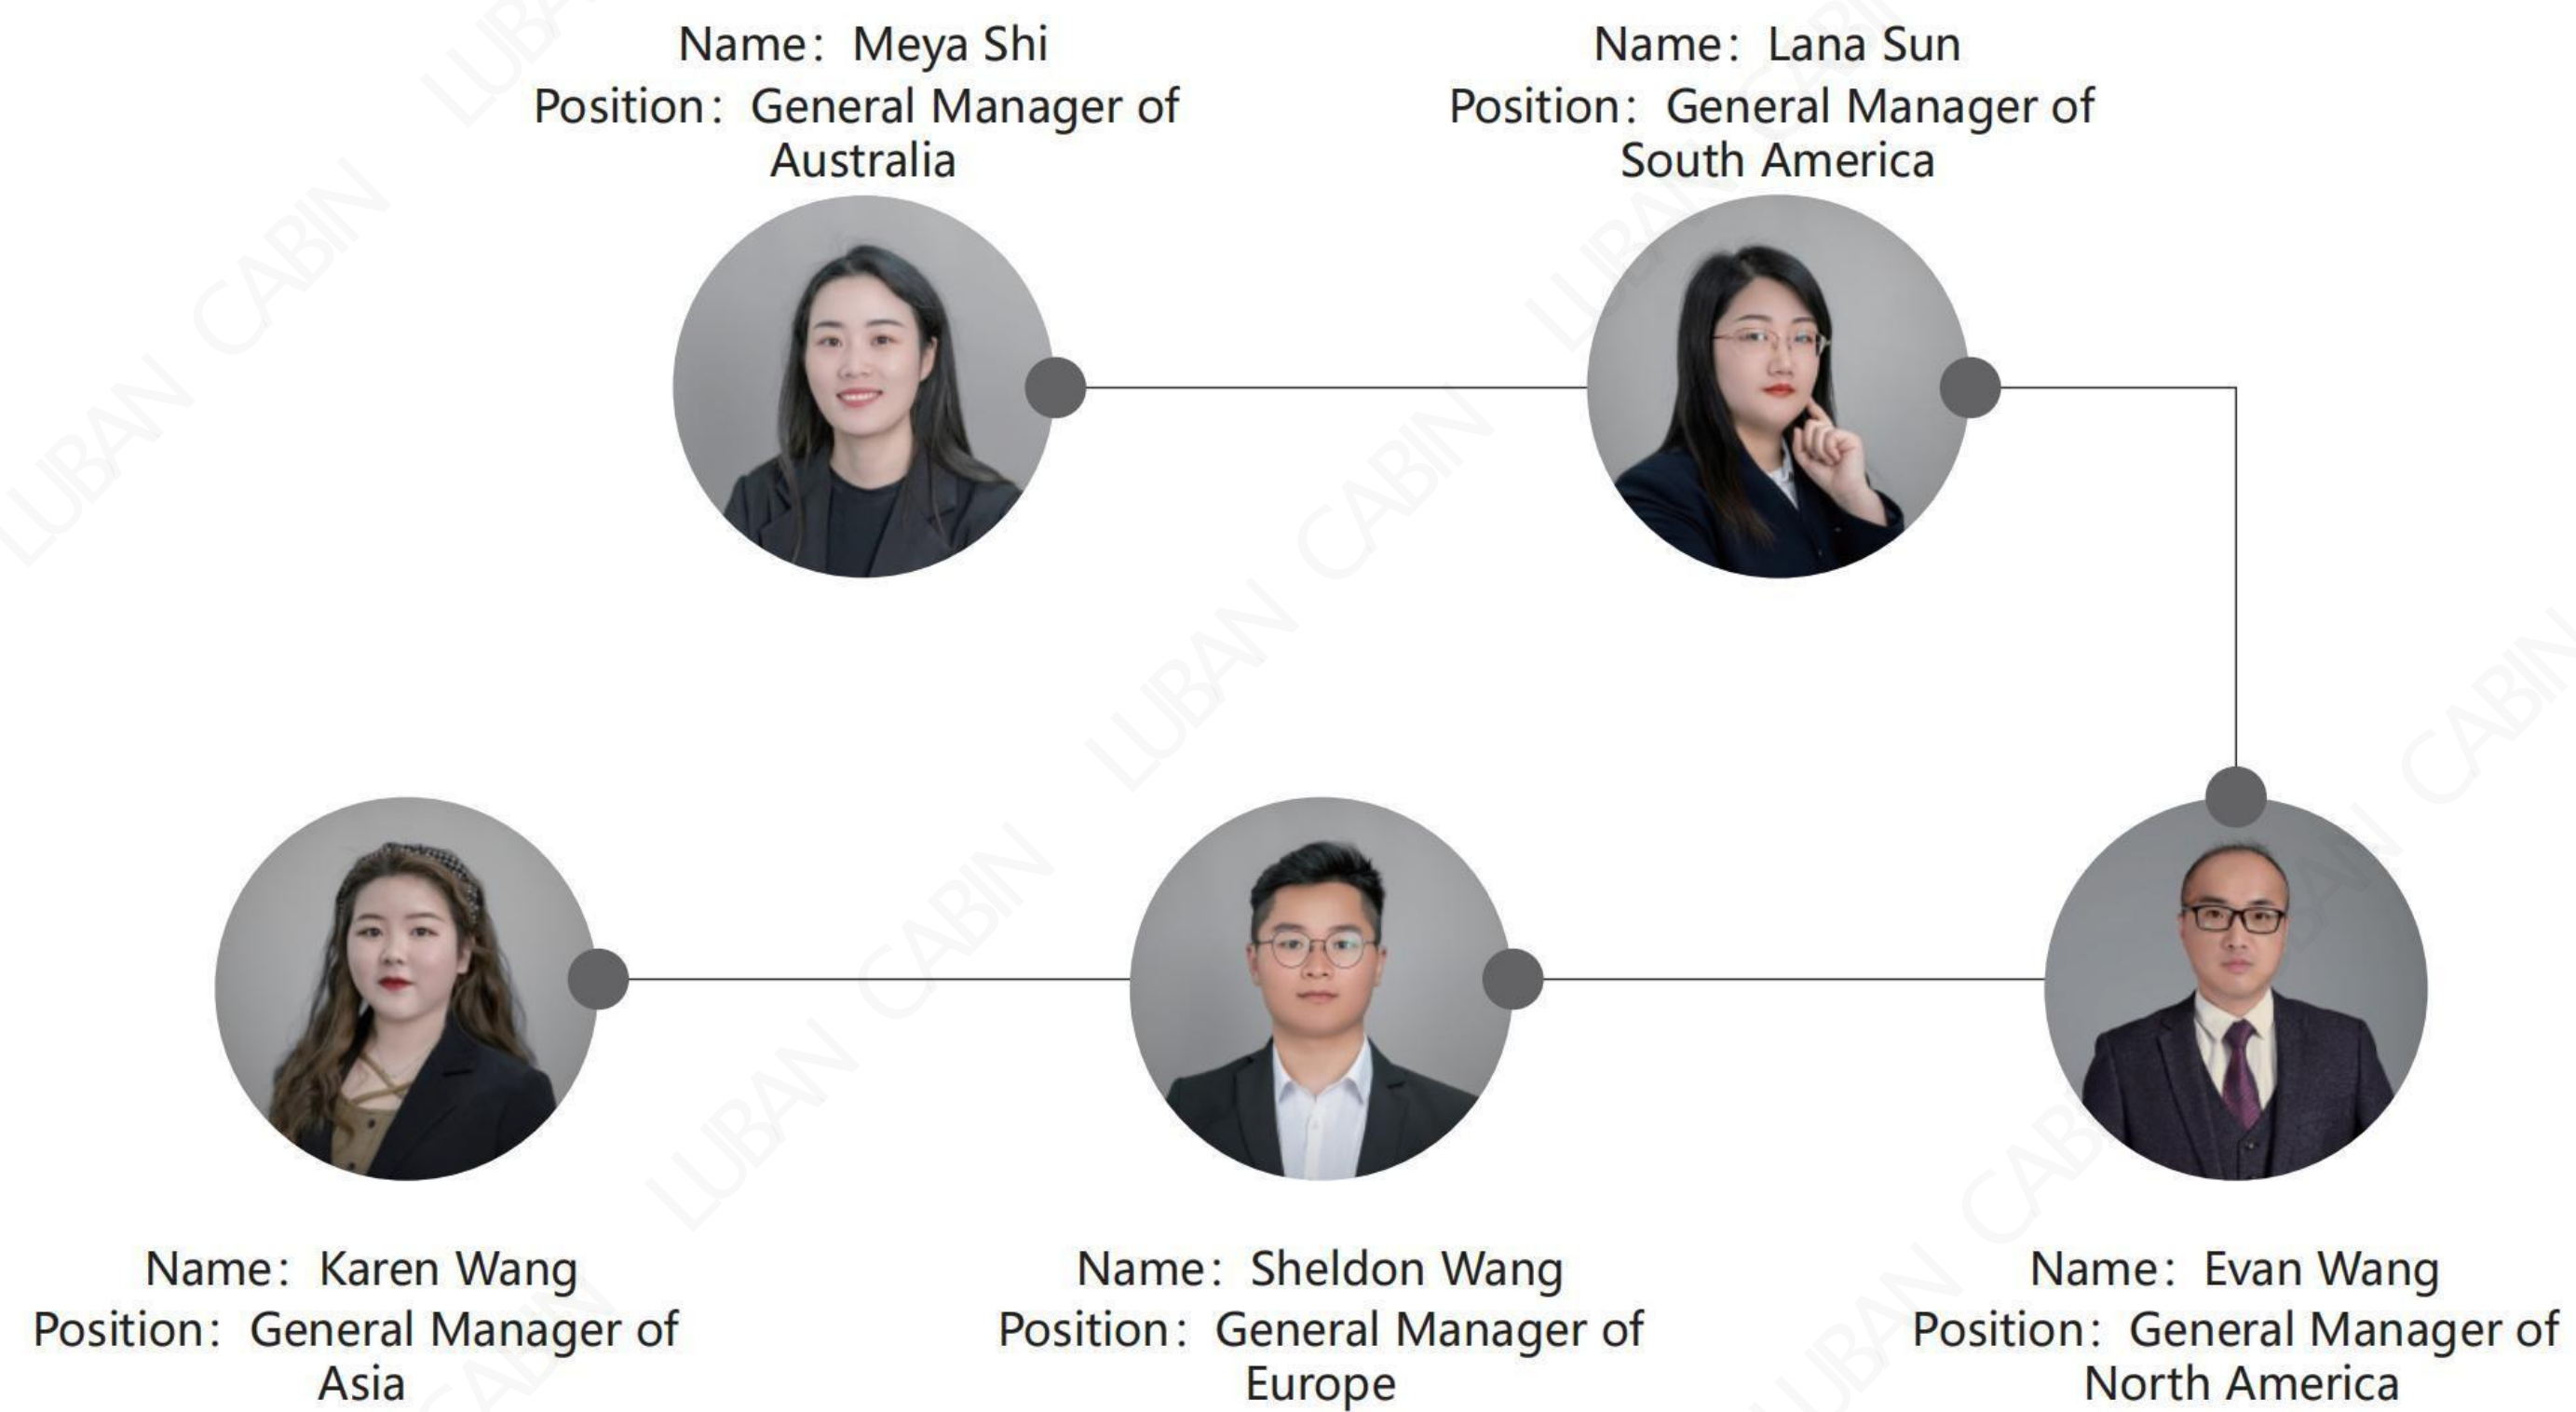

This exchange study has a profound discussion on how to expand the economic market of mobile cabins and how to plan the enterprise road. At present, mobile cabins meet the needs of people's tourism consumption, and diversified and interesting accommodation experience breaks the limitations brought by traditional accommodation methods. With the continuous expansion of domestic tourism market, The application scenarios of mobile homestays have also become more diverse. Whether it is mountains, beaches or cities, you can see the figure of mobile homestays. This also provides more opportunities for the development of mobile homestays.

After several years of large-scale expansion, the global express hotel has felt the threat of the space capsule hotel: in just 5 years, it has developed to all over the world, and in the next 10 years, it will quickly sweep the entire hotel industry, which will reallocation the entire domestic hotel industry.

In the past, hotel chains represented a fashion trend that was popular with business people. According to statistics, since 2016, no less than 8 million graduates a year to find jobs in the city, these graduates with relatively low economic ability have brought huge business opportunities for space capsule hotels.

In addition, with the huge extension of domestic high-speed rail and the expansion of airports, high-quality and convenient space capsule hotels began to enter these places with rich passenger sources; Hospitals, childcare parks, e-sports Internet cafes and other special space capsule hotels will also bloom everywhere, and the market potential is huge.

As a tie person of the enterprise, we will also seize the opportunity, seize the market, lead the direction of the enterprise, and make this cause bigger and stronger with efforts and wisdom.

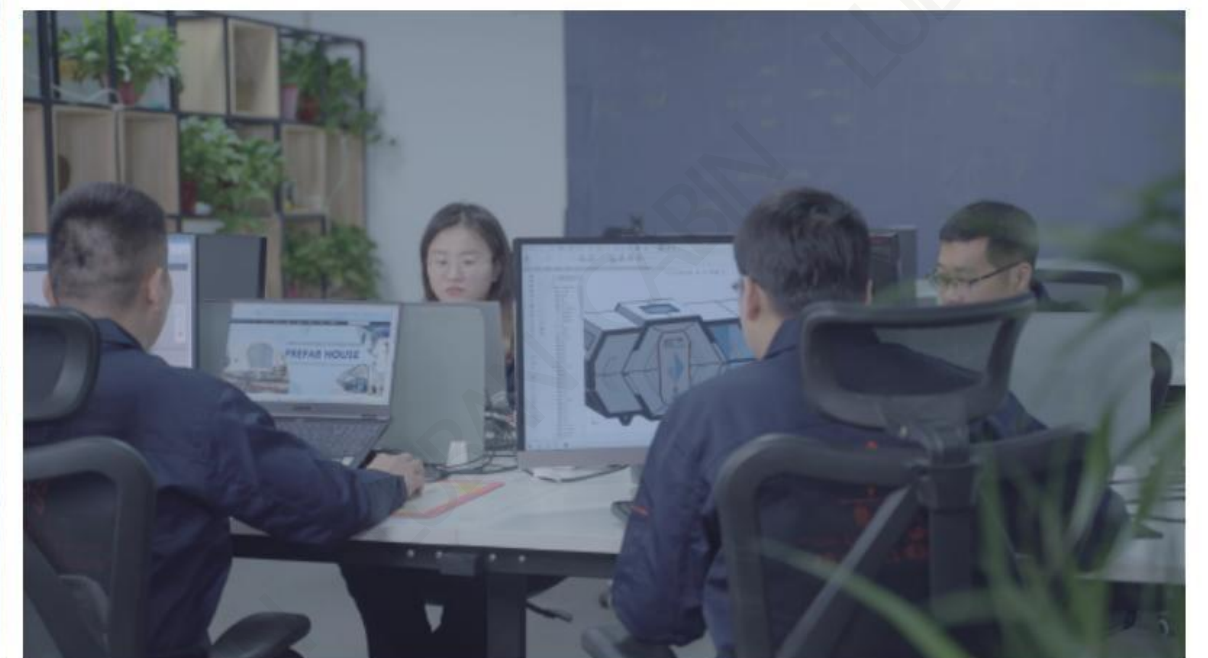

05 | 组织架构 | ORGANIZATIONAL STRUCTURE

企业团队

Enterprise team

Luban Cabin has a professional design and production team, products from research and development to landing are strictly controlled by the technical team, so far has developed and produced starship, nebula, star map, constellation, and other products. The design department insists on innovative research and development of future cabin products with both aesthetics and practicality from a professional point of view, and implements this concept in its work.

鲁班筑拥有专业的设计生产团队，产品从研发到落地都由技术团队严格把控，至今已研发生产星舰、星云、星图、星座、等系列产品。设计部门坚持从专业的角度出发，创新研发美观性和实用性并存的未来舱产品，并在工作中贯彻这一理念。

1. 抗风压可达9级

WIND PRESSURE UP TO GRADE 9

外门窗正常关闭状态时在风压作用下不发生损坏，高强度的柱、梁、墙等承重构建进一步抵抗风压和震动的影响。

When the external doors and Windows are normally closed, there is no damage under the action of wind pressure. The load-bearing construction of high-strength columns, beams and walls further resists the influence of wind pressure and vibration.

2. 防腐防虫

ANTICORROSION ANTI-INSECT

外部铝合金材质具有很大的耐腐蚀的特性。材料经过特殊处理，密闭性好，可以防蚊、防虫、防白蚁，使用寿命长达50年。

The exterior aluminum alloy material has great corrosion resistance. After special treatment, the material is airtight and can prevent mosquitoes, insects and termites. The service life is as long as 50 years.

3. 防火防水

FIREPROOF AND WATERPROOF

墙体采用防水卷材、防水材料，水密性能可达6级强风暴雨不受侵扰采用高阻燃性板材制作墙体，增加防火防水的能力。

The wall is made of waterproof coil and waterproof material, and the watertight performance can reach level 6 strong wind and rainstorm. The wall is made of high flame retardant sheet to increase the ability of fire and waterproof.

4. 保温隔热可达8级

THERMAL INSULATION UP TO GRADE 8

冬暖夏凉舒适节能，采用多种材料的组合墙，形成保温构造系统，解决保温与隔热的双重问题。

Warm in winter and cool in summer, comfortable and energy saving, the combination of a variety of materials is used to form a thermal insulation construction system to solve the double problem of thermal insulation and thermal insulation.

5. 隔音性能可达45分贝

SOUND INSULATION UP TO 45 DECIBELS

采用双层玻璃及隔音材料，满足国标《绿色建筑评价标准》GB50378，旨在为居住者提供一个安静的室内生活环境。

Double glazing and sound insulation materials are adopted to meet the national standard "Green Building Evaluation Standard" GB50378, aiming at providing a quiet indoor living environment for residents.

6. 防盗防冻

GUARD AGAINST THEFT ANTIFREEZE

气密性可达8级，钢结构框架、高强度铝板舱身、加固的门锁安全性高，保证隐私的同时，又能享受屋外的自然美景。

Air tightness up to 8, steel structure frame, high-strength aluminum body, reinforced door lock security, Enjoy the natural beauty of the outside while maintaining privacy.

自动投影屏

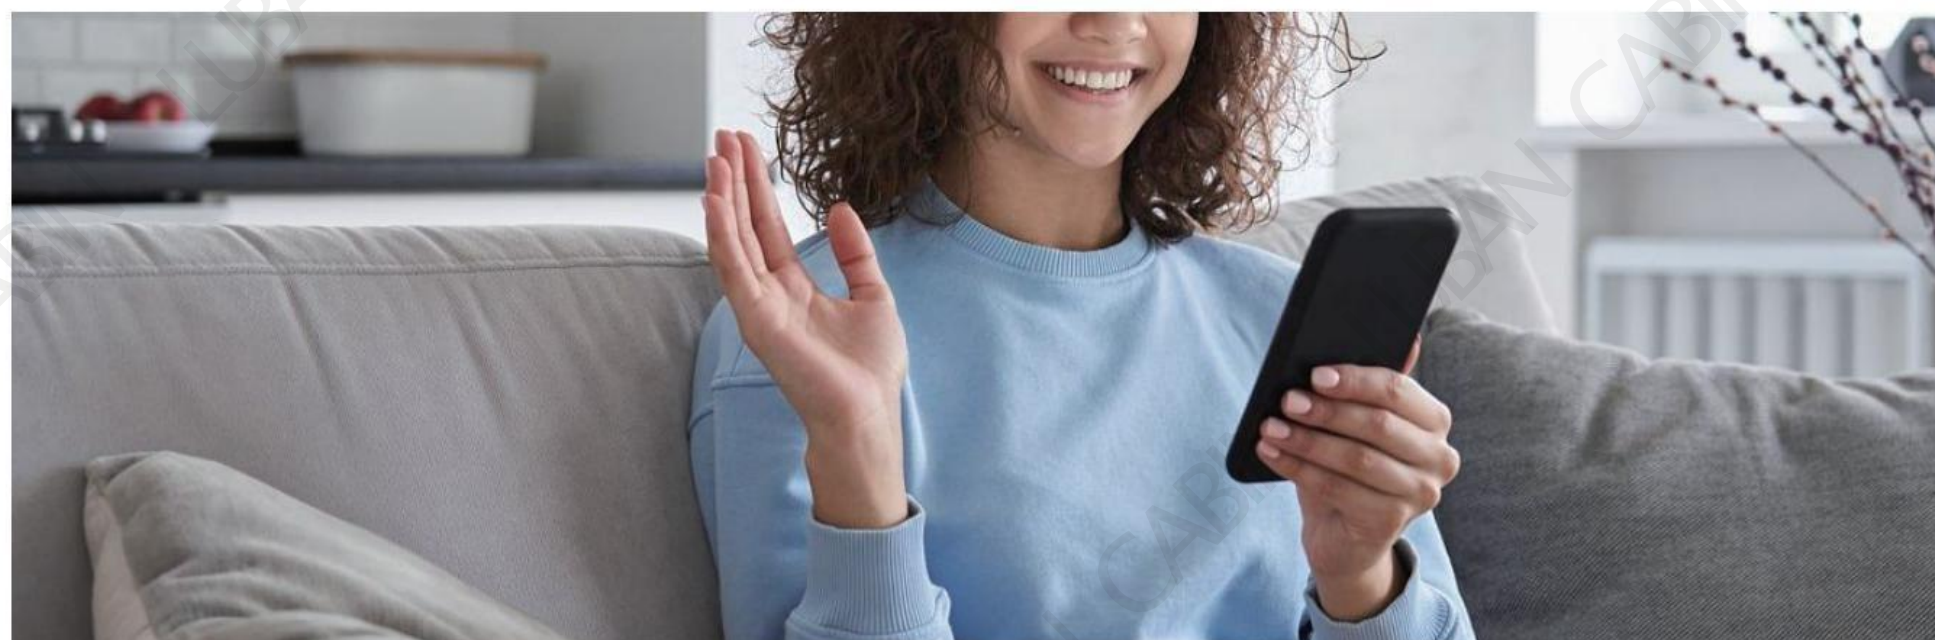

Automatic projection screen

跨界整合

提供智能一体化设备的整体解决方案。

Provide the overall solution of intelligent integrated equipment.

远程控制

全屋智能家居系统，
手机 APP 即可远程控制。

The whole house smart home system, mobile
phone APP can be controlled remotely.

智能化升级

传统客房硬件智能化升级智能 AI 客服，
帮助酒店降本增效，提升住客体验。

Traditional guest room hardware intelligent
upgrade can only AI customer service, help the
hotel to reduce costs and increase efficiency,
improve guest experience.

多元系统建设

一套系统解决酒店通信及能化问题，
统一管理后台，方便快捷。

A system to solve hotel communication and
enablement problems,
Unified management background, conve-
nient and fast

精准数据采集

定期帮助酒店智能采集各数据，为酒店持续优化运维方式提供数据
支撑。后台自动计算总收入、成本、毛利，财务更省心。

Regularly help the hotel intelligent collection of data, for the
hotel to continue to optimize the way of operation and mainte-
nance to provide data support. Background automatic calcula-
tion of total revenue, cost, gross profit, financial more worry.

OTA 在线升级
云端在线完善升级系统，减少维护检查成本

LUBAN CABIN

BEAUTIFUL RURAL LUXURY RESORT

一、美丽乡村野奢度假村

ONE

拆建环保便捷，是举办各类主题活动、户外露营住宿活动、户外装备展会的不二之选。

Demolition and construction is environmentally friendly and convenient, and it is the only choice for holding various theme activities, outdoor camping and accommodation activities, and outdoor equipment exhibitions.

CULTURAL AND TOURISM COMPLEX AND FOREST HEALTH VALLEY

二、文旅综合体及森林康养谷

TWO

未来舱适应多种地形环境、运输便利。为文旅和康养行业发展提供了更加优越的选择。

The future tank adapt to a variety of terrain environment, convenient transportation. It provides a more superior choice for the development of cultural tourism and health care industry.

URBAN RENEWAL SPACE AND CITIZEN STATION

三、城市更新空间及市民驿站

THREE

占地面积小，实用性强，在城市建设中可代替一些公共设施，如献血点、公共厕所、市民驿站等。

It has a small area and strong practicality, and can replace some public facilities in urban construction, such as blood donation points, public toilets, and citizen stations.

SMART TOURISM SHARING CAMPING SITE

四、智慧旅游共享、露营地 FOUR

团建拓展、游学研学、旅游露营，提升体验感，享受与自然亲密接触的自在轻松。

Group building development, travel to study and research, travel camping, enhance the sense of experience, enjoy the intimate contact with nature at ease.

ECOLOGICAL RESORT HOTEL

五、生态度假酒店 FIVE

度假酒店引进未来舱，不仅吸睛引流，而且节约了时间、土地面积和工程成本。

The resort hotel introduces the future cabin, which not only absorbs the eye and drains, but also saves time, land area and engineering cost.

EDUCATION OF MEDICAL, HEALTH CARE RETIREMENT

六、教育医疗、保健养老 SIX

在教育医疗和保健养老方面，提供便捷驿站，智能化设备辅助教育医疗，设计更加人性化。

In terms of education and medical care and health care for the elderly, it provides convenient stations, intelligent equipment to assist education and medical care, and the design is more humane.

Building area: 1000 square meters
Project scale: 90sets

20 | 运输方式 | MODE OF TRANSPORT

LUBAN·CABIN

第四章 | 一站式服务 ONE-STOP SERVICE

安装产品前，客户需按照我司产品标准基础水电图纸，完成给水、给电、排污管线及承重基础的现场工程。在我司技术员的指导下，精准落位到设计的安装点位，接通水电后，完成通水通电测试，交由客户验收。

1	我司统一安排货车运输至项目现场。 标准货车为 17.5M 长半挂车，运输宽度为 3M，运输高度不大于 4.2M，可全国高速道路自由通行。 Our company unified arrangement of truck transport to the project site. The standard truck is 17.5m long semi-trailer, 3m transport width, transport height no more than 4.2m, can be free to pass the national highway.	2	货物抵达现场后，需要客户自行联络当地的吊车服务，我司技术团队会提前抵达现场指导。吊装重量在 5 至 10 吨，建议选用不小于 25 吨级别的吊车装卸。 After the goods arrive at the site, the customer needs to contact the local crane service. Our technical team will arrive at the site in advance for guidance. Lifting weight of 5 to 10 tons, it is recommended to use not less than 25 tons of crane loading and unloading.
 			

（一）简易方案/SIMPLE SCHEME

将太空舱裸装放置在框架箱之上，用绑扎带固定在框架箱之上，绑扎带与产品接触区域垫胶皮及毛毡，框架箱两侧挡板如果与产品距离过近要放置毛毡，产品底部要用三角木格挡，最后盖篷布和网兜再进行二次绑扎。

The space capsule is placed naked on the frame box, fixed on the frame box with binding tape, binding tape and product contact area padding rubber and felt, the frame box on both sides of the baffle if the distance from the product is too close to place felt, the bottom of the product should be triangular wooden block, and finally cover tarpaulin and net for two times.

（二）常规方案/CONVENTIONAL SCHEME

针对太空舱的玻璃面用木板做局部防护，这种防护前期主要用于带驾驶室的工程机械，保护驾驶室玻璃，起到防盗作用。

The space capsule is placed naked on the frame box, fixed on the frame box with binding tape, binding tape and product contact area padding rubber and felt, the frame box on both sides of the baffle if the distance from the product is too close to place felt, the bottom of the product should be triangular wooden block, and finally cover tarpaulin and net for two times.

（三）高端方案/HIGH-END SCHEME

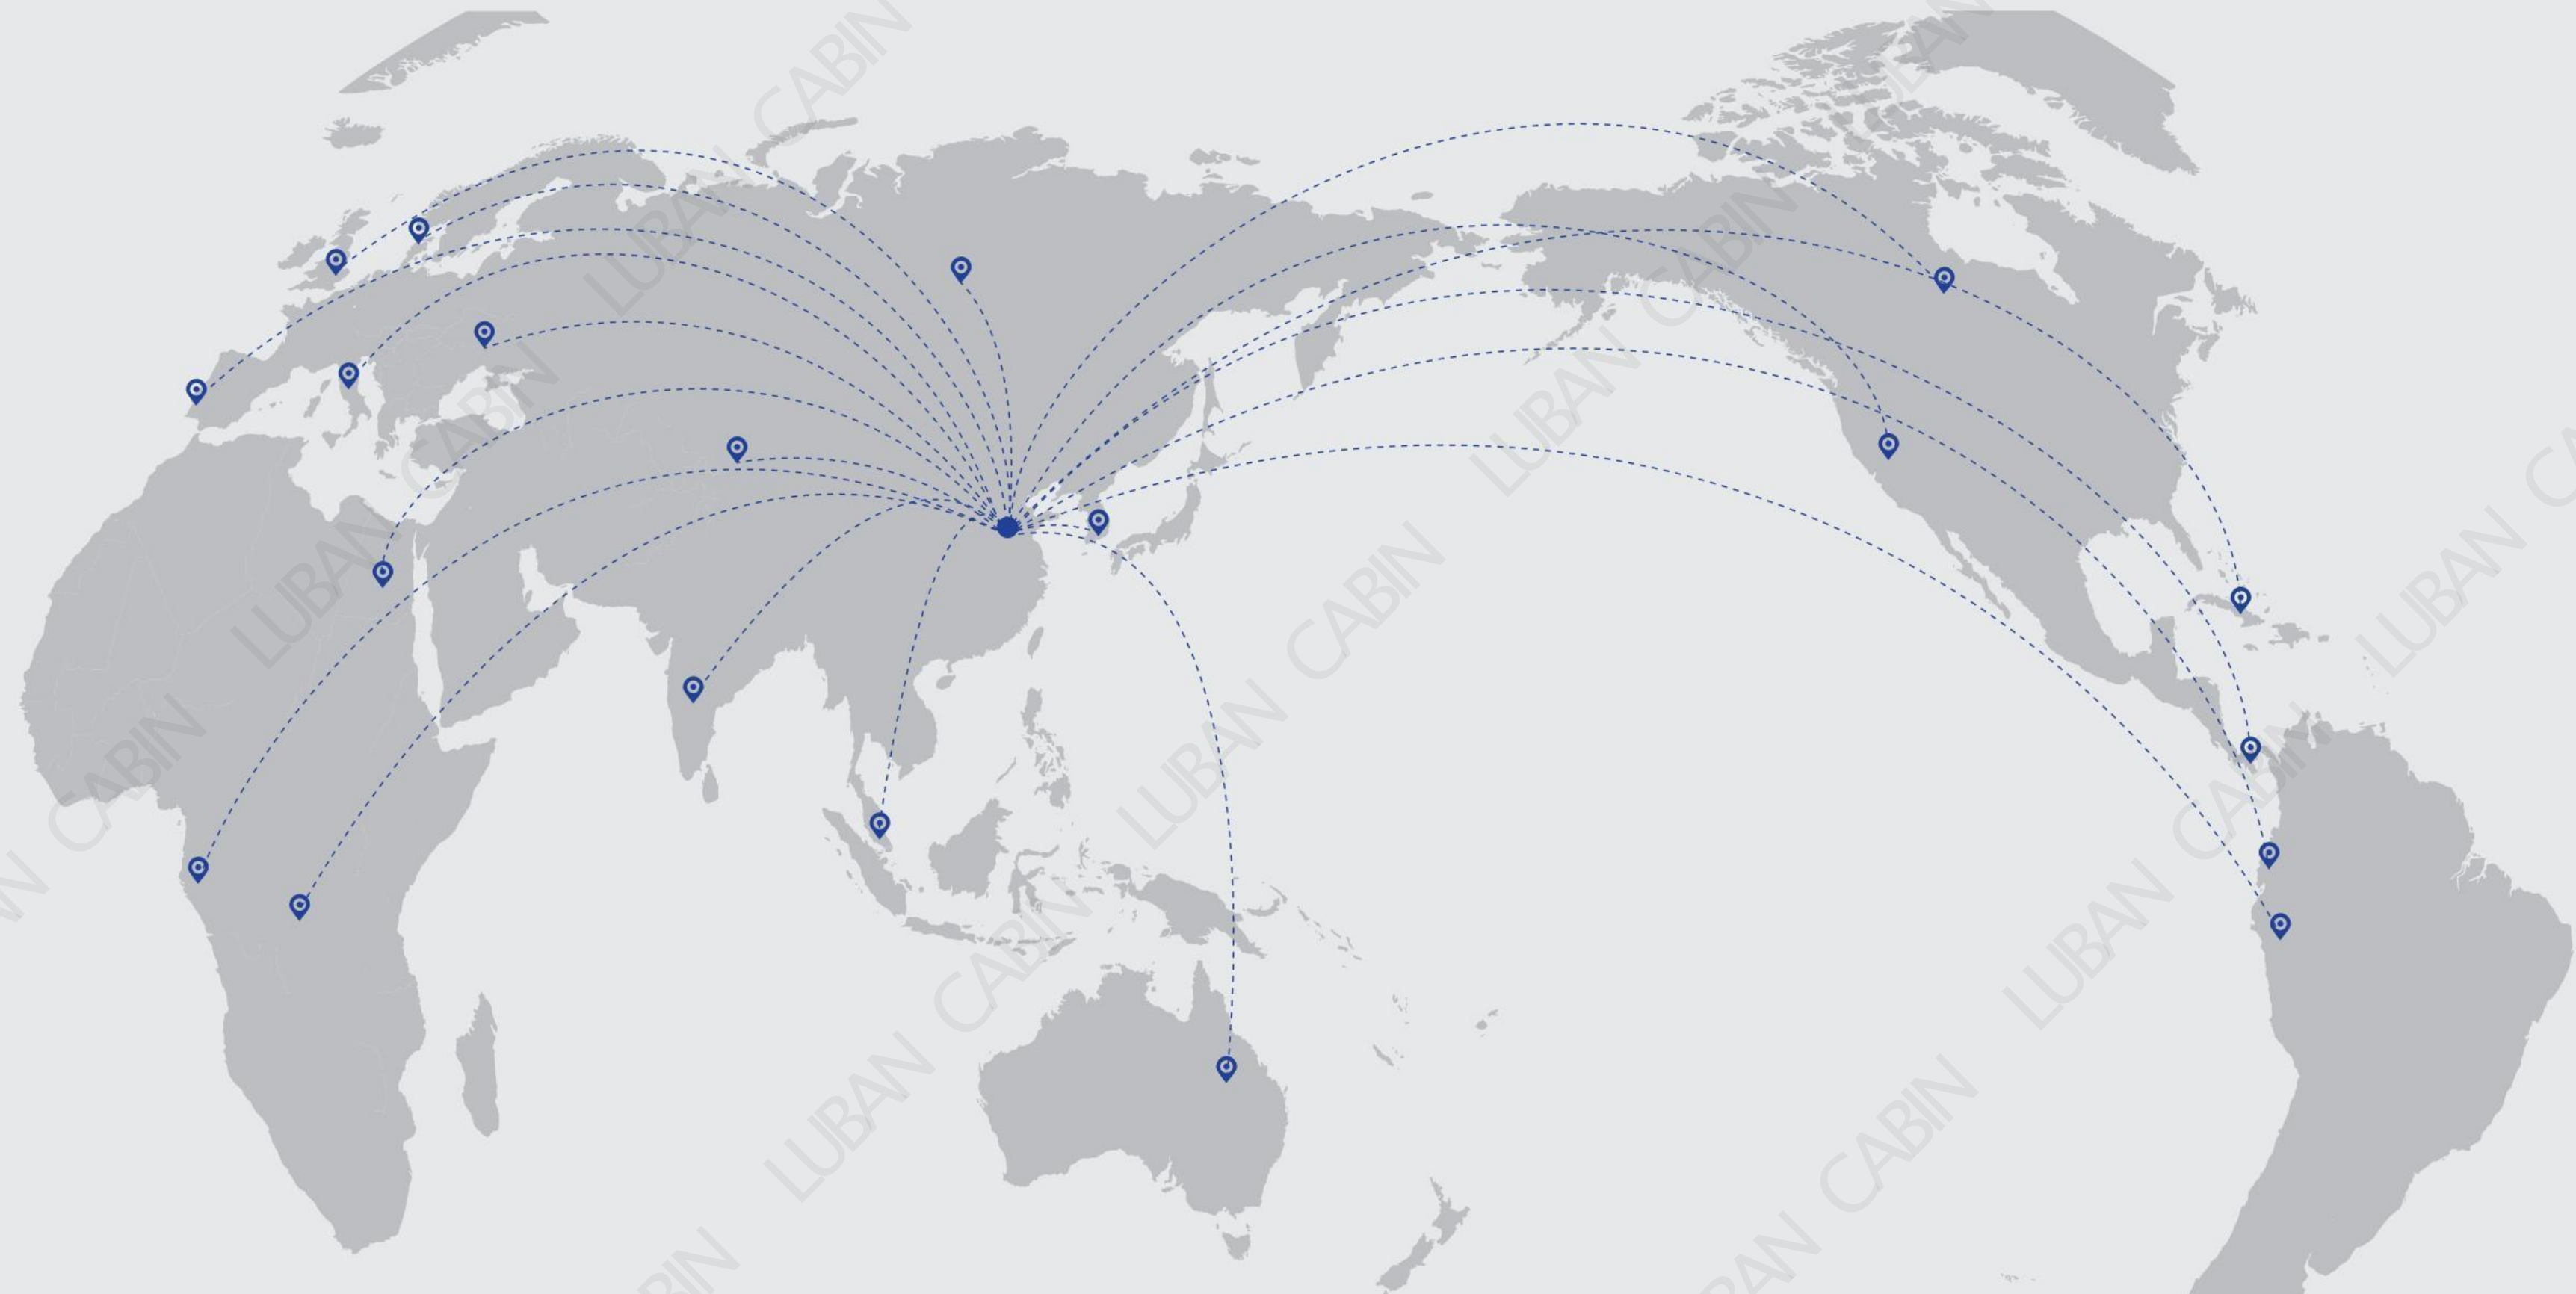

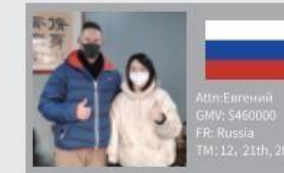

定制铁框架包装箱或木框架包装箱，货物包覆时要注意预留吊点，不可直接吊装外包装。太空舱装入包装时，底部要与包装箱底托固定，预留叉车叉装孔（类似于托盘）。

When customizing iron frame packing boxes or wooden frame packing boxes, reserve lifting points when wrapping the goods. Do not lift the outer packing directly. When the space capsule is packed, the bottom should be fixed with the bottom support of the packing case, and the forklift fork loading hole (similar to the pallet) is reserved.

第五章 | 光辉时刻 GLORIOUS MOMENTS

2018年10月5日，某某公司来访，表达双方在以后能深化互利合作，促进共同发展的意愿。

2020年2月中旬，来自CHEMIX公司的日方代表对未来舱部分工厂开展了为期两天的参观访问，并希望通过洽谈实现长期深入合作。

2021年5月，与俄罗斯企业达成合作，鲁班筑将为俄罗斯企业提供出口服务。

至2025年，鲁班筑将不断深化改革、加快结构调整、强化市场营销、突出科技引领，逐步扩大开发合作的步伐。

On October 5, 2018, XX company visited to express the willingness of both sides to deepen mutually beneficial cooperation and promote common development.

In the middle of February 2020, CHEMIX Japanese representatives made a two-day visit to some of its factories, hoping to achieve long-term in-depth cooperation through negotiations.

In May 2021, an agency agreement was signed with Russian enterprises, and Luban Cabin will provide export services for Russian enterprises.

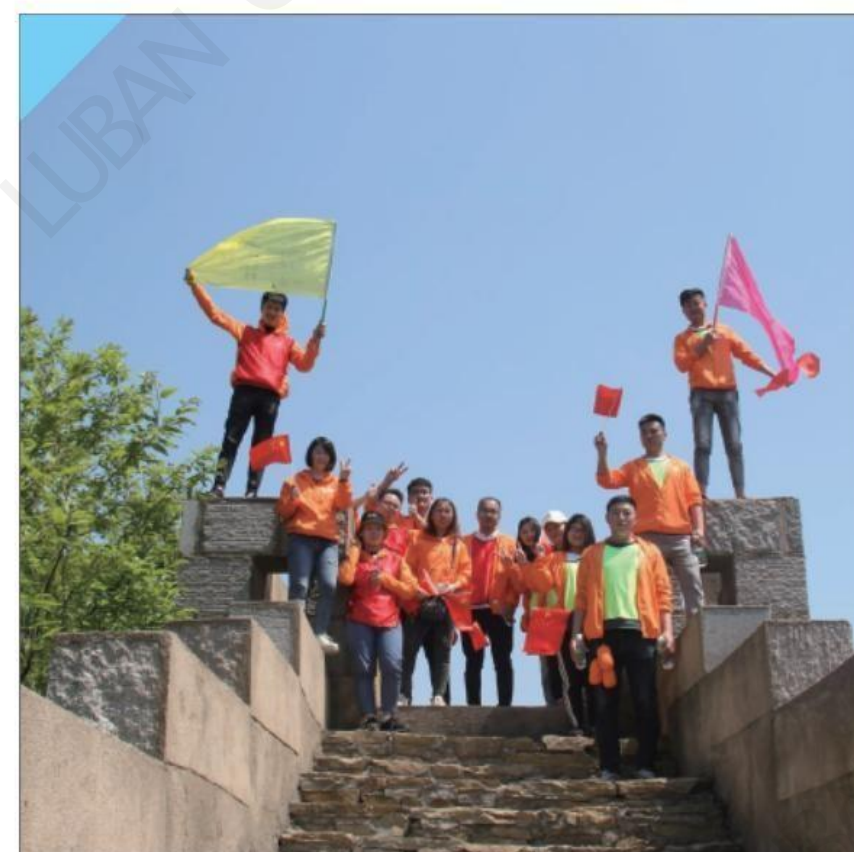

By 2025, Luban Cabin will continue to deepen reform, accelerate structural adjustment, strengthen marketing, highlight the lead of science and technology, and gradually expand the pace of development cooperation.
