Introduction

Nobody can deny that 2020 is been a fantastic year for DeFi space, and the first month of 2021 was amazing as well, however, there's still a big problem in the space.

The Gas fees are still very high.

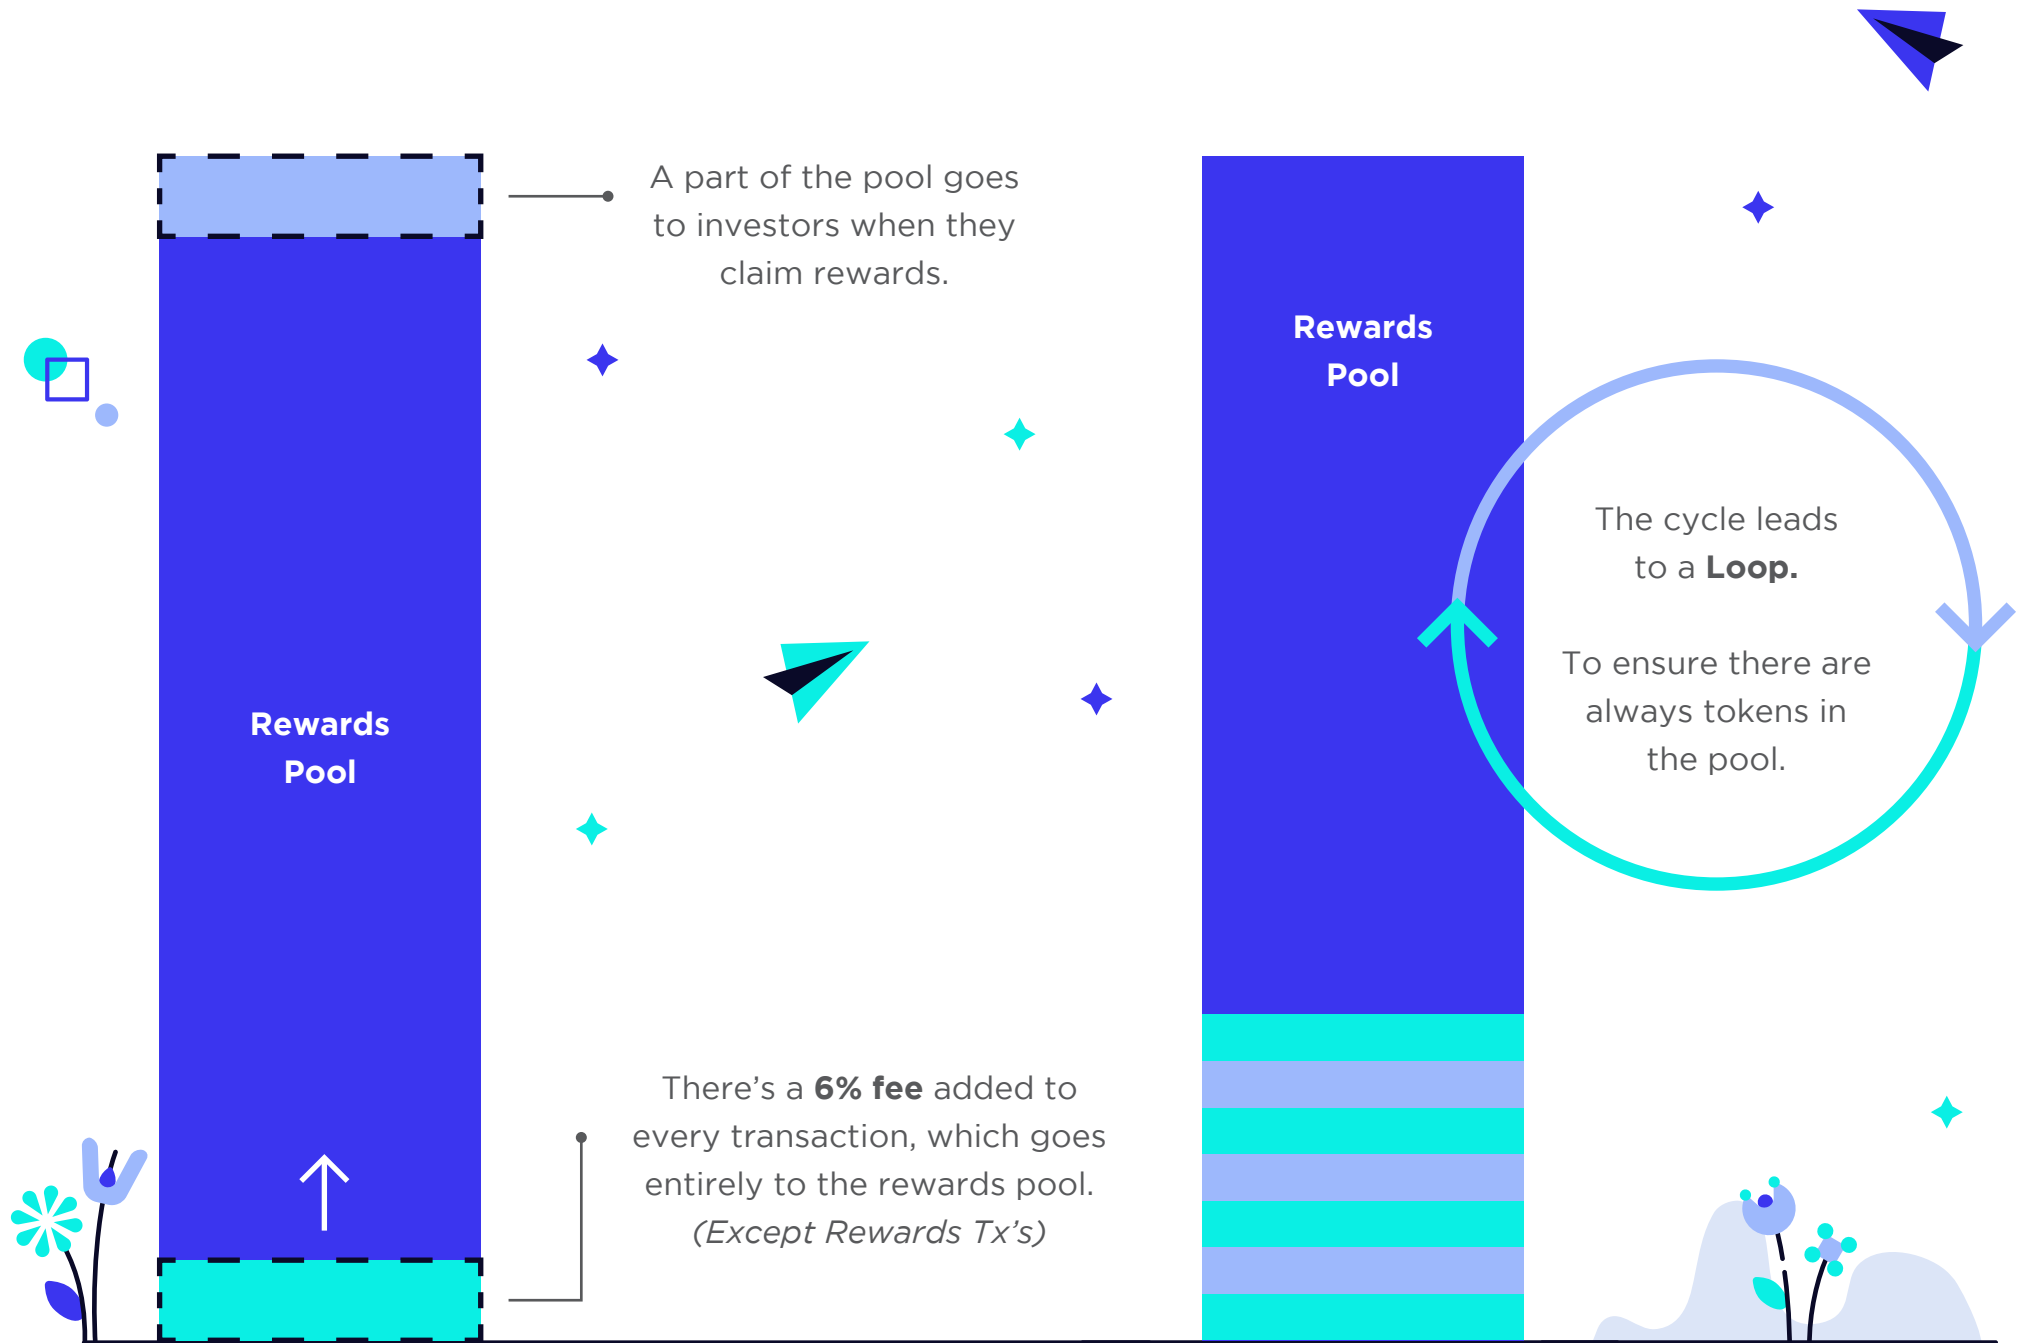

Solution

The **\$GASPAY** vision is to provide the fundamentals where DeFi investors are able to get their gas expenses back through a mechanism that works using a **“Rewards” Pool** where people are able to claim 100% of their rewards monthly, or 3.33% daily.

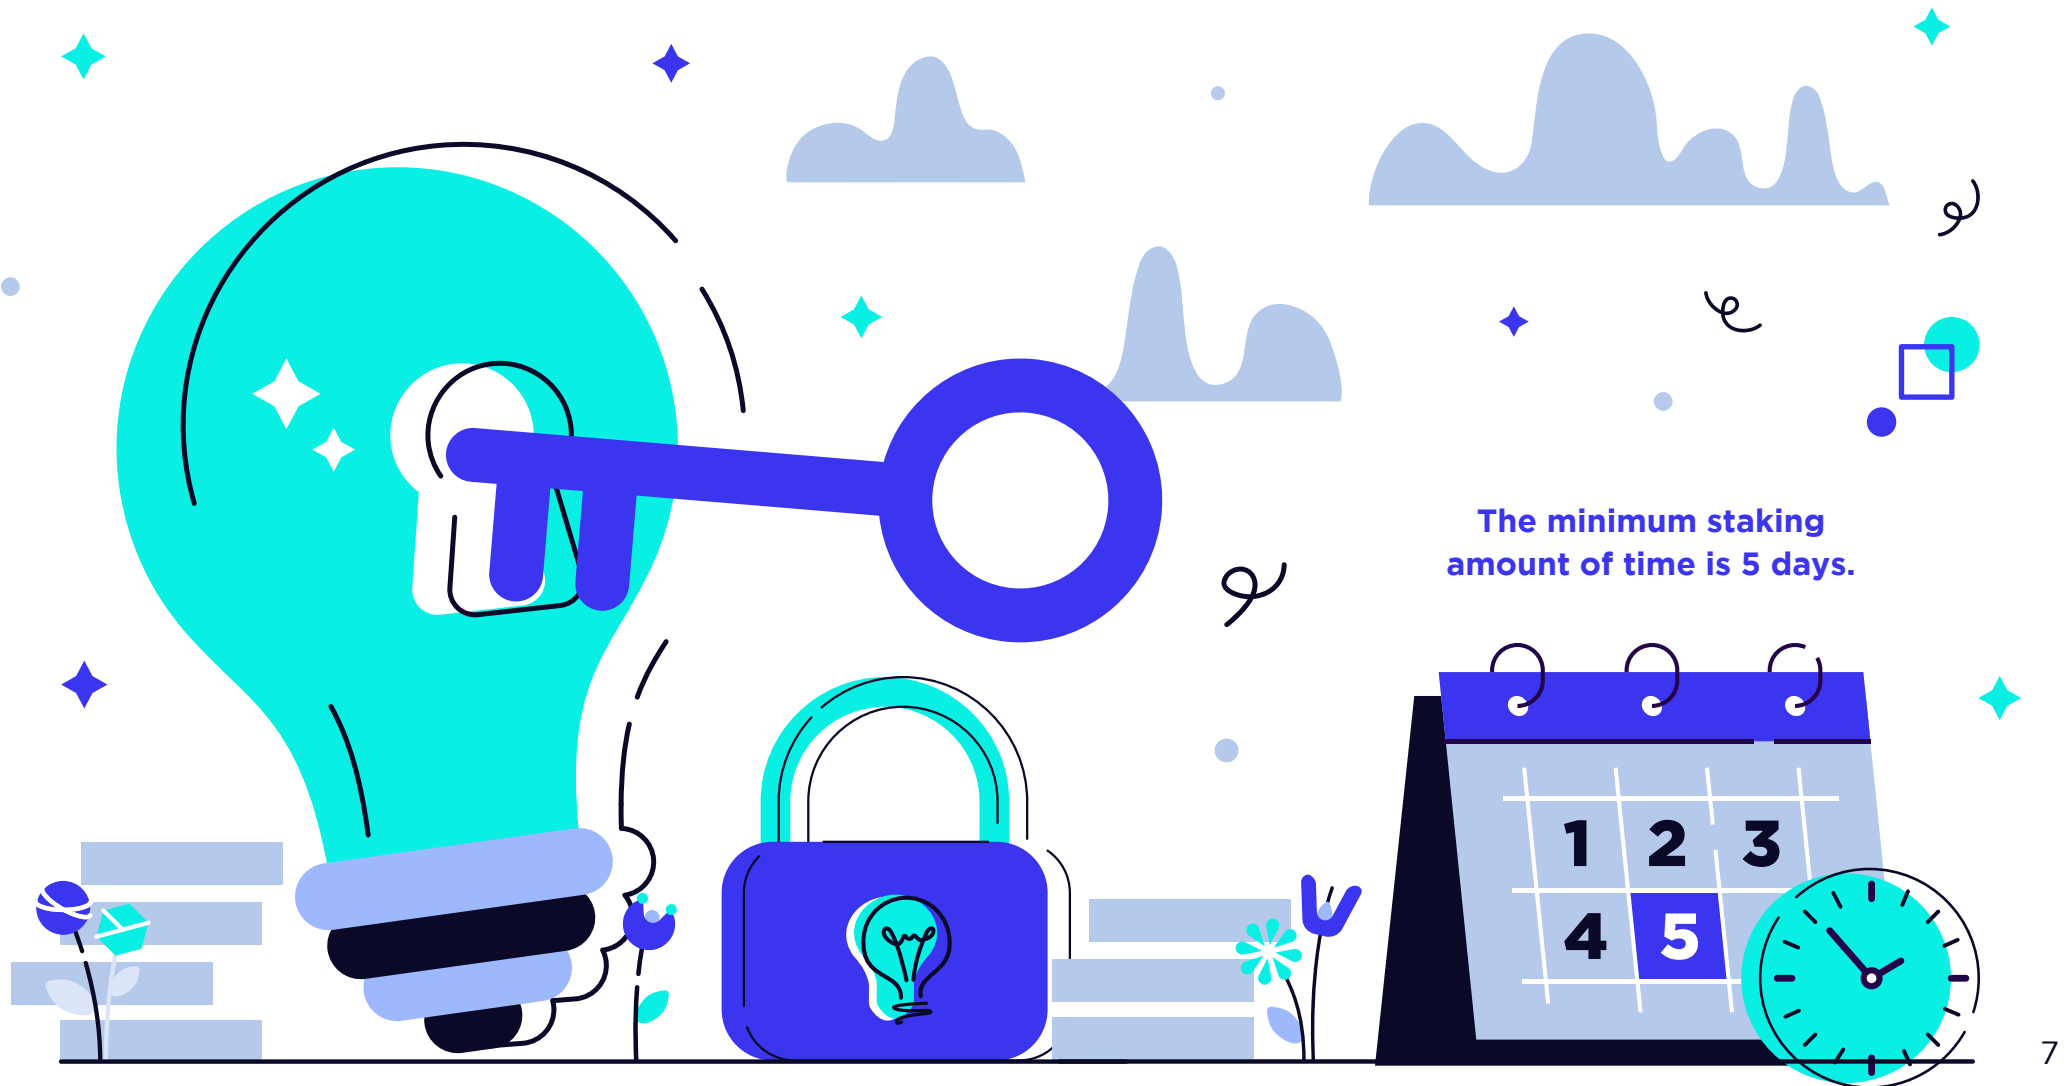

Rewards Pool

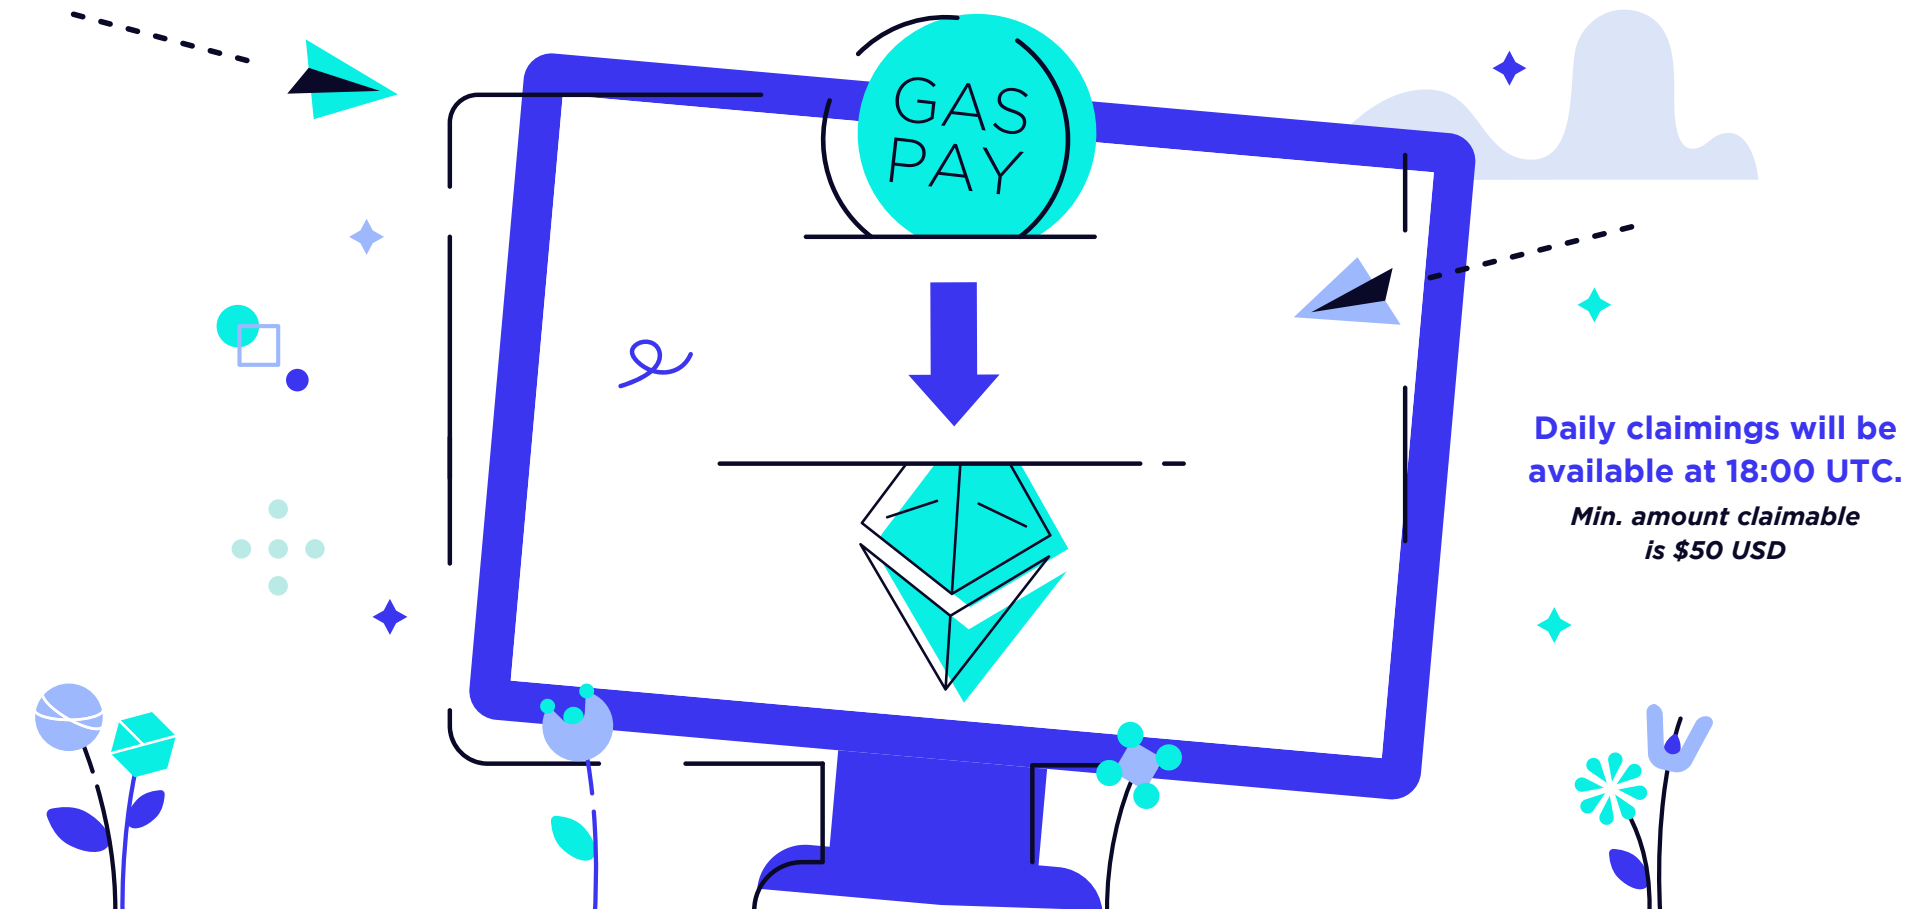

Staking System

The **GasPay's vision** is to create an automated ecosystem where the Rewards Pool maintains a balance between deposit/withdrawal of \$GASPAY tokens. To further ensure to achieve this goal, we introduce the **GasPay Staking**. **Stake from 100 \$GASPAY and get rewarded.**

Staking Rewards Pool

Worth of \$GASPAY in USD	Max. Cashback Daily in USD	Max. Cashback Monthly in USD
\$500	\$16.65	\$499
\$1,000	\$33.3	\$999
\$5,000	\$166.5	\$4,995
\$20,000	\$660	\$19,800
