

HOW TO MAKE RECORDINGS USING THE DTRECORDER APPLICATION

1-Search on Google Play or Apple store for DTRecorder:

Download and install.

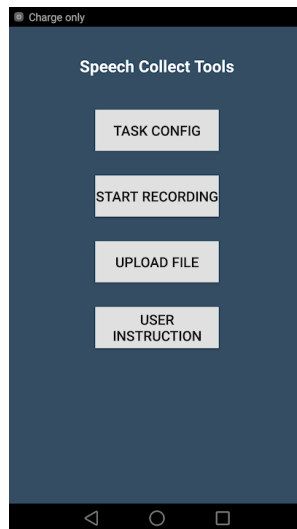

2-Open the Application

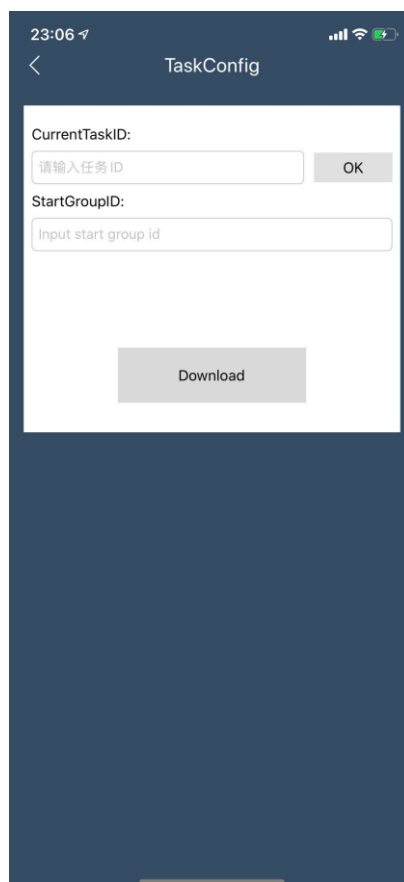

This is the home screen, give the app permissions and click AGREE & ENTER.

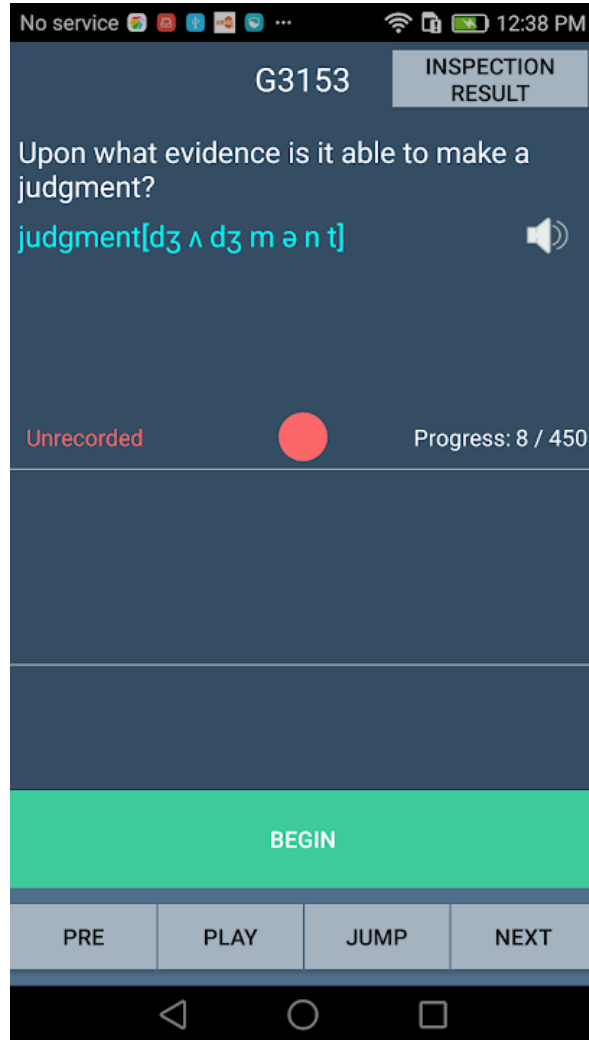

3-In the initial menu you will use the first option "TASK CONFIG" to configure your task.

4- Within the option "TASK CONFIG" you will find TWO BOXES, the first one that says "CurrentTaskID" must be filled in with the "TASK ID" provided, only numbers. The second box says "StartGroupID", must be filled in with the GroupID provided, only numbers. Then click download.

5-After going back to the Main menu indicated in the third figure of this manual, Click on the SECOND OPTION “START RECORDING”, a brief explanation of how to make the recordings will appear, pay attention to the steps. A noise test will be done, remain silent during the entire test. Right after you should read the text indicated by pressing the “BEGIN” button or start, it depends on the language you are using.

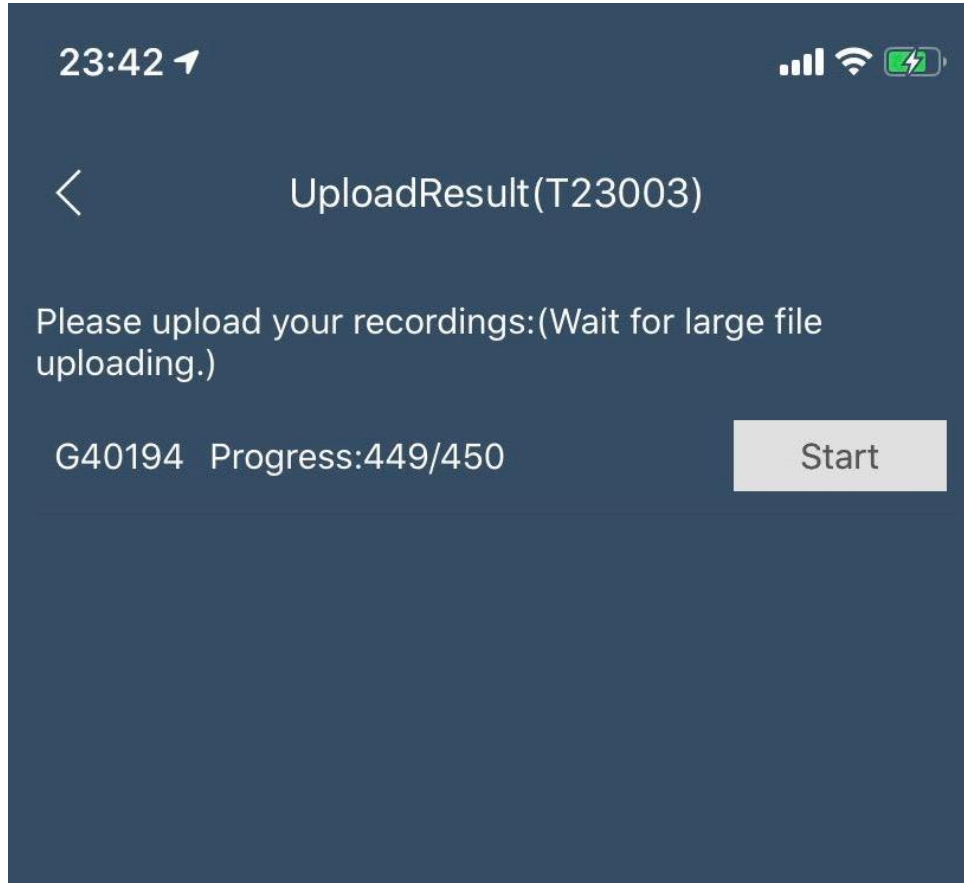

Below is an interactive menu, you can go to the previous recording on the first button, on the second play the selected recording, on the third skip to the next, and on the fourth just go to the next.

Remembering that the recordings must be made in a quiet environment, without external noise and without an external microphone.

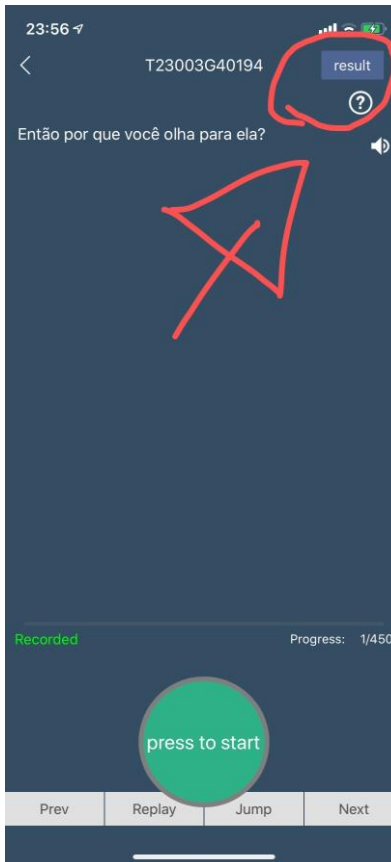

You can close and open the application at any time and make the recording in different parts within the deadline set for your project.

6-After finishing recording all the phrases, go back to the main menu (figure 3 of this manual) and click on the THIRD OPTION "UPLOAD FILE" and download all the files to the cloud, clicking on START, after finishing take a screenshot, and send it to we. We recommend that you upload it over a wifi network.

After finishing wait up to 5 working days to check the audios!

7-You can follow the inspection by the button in the upper right corner called "RESULT", there we report when it is necessary to re-record some audio that had impacted quality for some reason. Then you must re-record by clicking on each track and after finishing all resend, uploading only the re-recorded files again. Send us a new screenshot.

8-Wait for us to contact you to request your bank account and to sign the temporary employment contract.

Thank you for work with us! :)
