

学びをチカラに

Manabu

Our vision is to connect the world through personalized language learning. Above all, we value multicultural communication, friendship, and long-lasting relationships between students and teachers. We strive to develop the best digital resources available and are committed to adjusting our lessons to fit students' goals. We also take feedback seriously and frequently update the website with requested features.

WHY CHOOSE US?

Tailored Lessons

Manabu teachers create personalized lesson plans that fit your learning styles and interests. Exercises and other materials are customized specifically for you.

Immersion

We focus on getting students into a habit of constant learning. We are confident that we can help you immerse and achieve your fluency goals.

Data Analytics

Through Manabu, you can visualize your progress and growth. This can not only a way to stay motivated, but can also help you find areas of improvement.

Community

Learning a language can be difficult, so if you ever feel stuck we are happy to guide you! We have a supportive community of teachers and staff that will aid you throughout your studies.

Really great Japanese lessons and friendly teachers! I've taken group Japanese classes at my university in Singapore as well as in Tokyo itself, but my one-to-one classes with Manabu are my favourite thus far

I really appreciate the individualised and tailored lesson plans that they make to suit each student's needs, as well as the affordable daily lessons that keep my brain working. I find it easier to memaorise words and vocab when I'm constantly exposed to Japanese, rather than taking 2 1.5 hour classes twice a week (as I did in University) and getting burnt out + confused really fast.

I'm very fortunate to have found Manabu Lessons online and look forward to continuing to improve my Japanese ✨

Thank you very much for accommodating me as your student. I can say that it was really a different experience to be able to speak with and learn from native Japanese teachers. I just felt very relaxed and confident in every lesson. Each time I got questions, Misa sensei and Rina sensei, helped me and clarified everything right away. The teachers are very friendly and accommodating. It was worth it and such a great chance for me to improve my Japanese skill. Once again, thank you very much for accommodating me. I have high hopes and best wishes for your school. I hope you can reach out to more students because you have a unique and effective support for Japanese learners like me.

No.1 Japanese online school in Singapore
