Management Philosophy

We love trees !

Cherishing trees that have grown through hundreds of years of wind and snow, technology from the past and new eyes To add value with Dare and make the most of the inherent taste and goodness of wood and aim for a society that does not throw away trees.

Tree Effects

1 Moderate humidity

Trees have a tempering effect, so the fluctuation of humidity in the room is small.

2 Thermal insulation

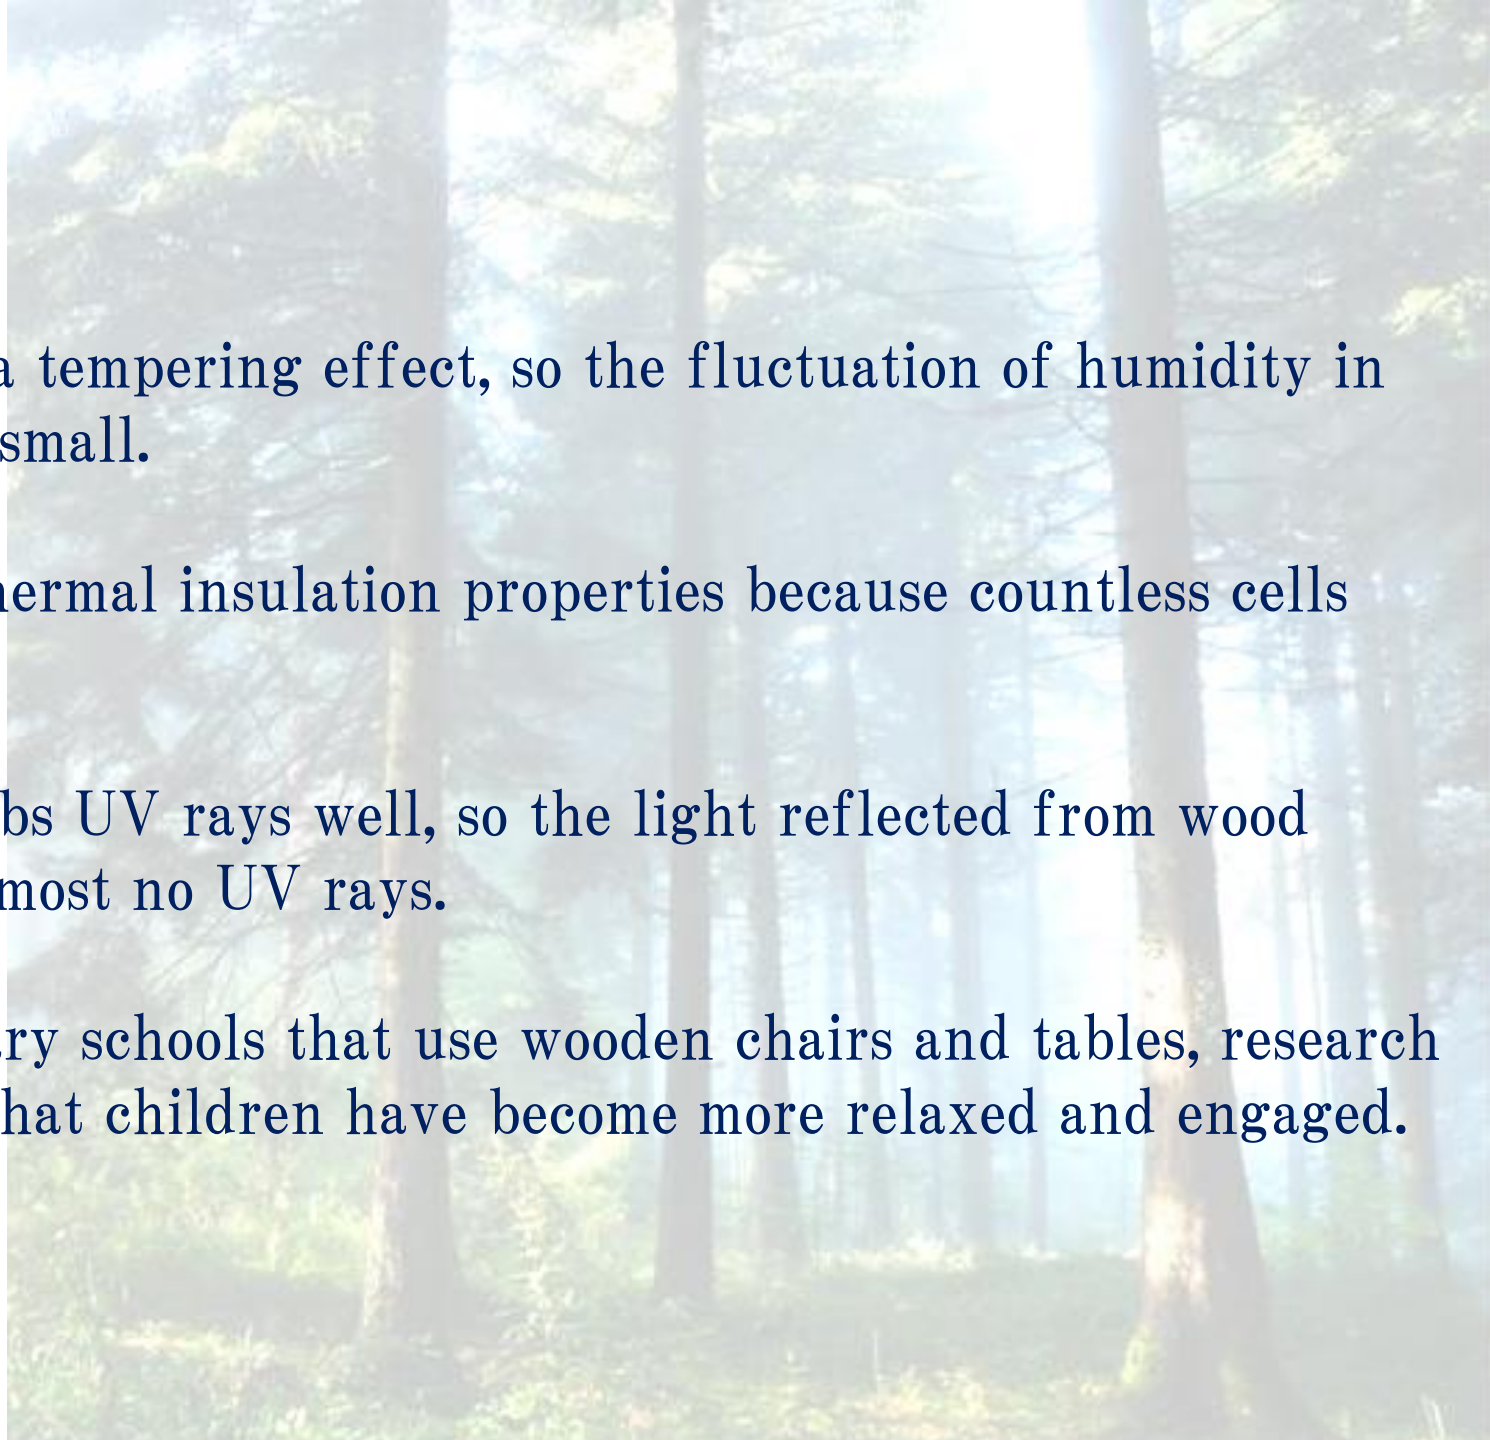

Wood has thermal insulation properties because countless cells contain air.

3 Absorption

Wood absorbs UV rays well, so the light reflected from wood contains almost no UV rays.

4 Relaxing effect

In elementary schools that use wooden chairs and tables, research has shown that children have become more relaxed and engaged.

Equipment

VENEER MANUFACTURING EQUIPMENT

- SLICER (3.0M) ×2 UNIT
- POLISHING MACHINE (4.0M) ×1 UNIT
- HIGH FREQUENCY VACUUM VENEER DRYER (3.0M) ×1 UNIT

DECORATIVE PLYWOOD MANUFACTURING EQUIPMENT

- CUTTING MACHINE (4.0M, 3.0M, 2.5M) ----- × 3 UNIT
- GLUING MACHINE ----- × 3 UNIT
- HOT STEAM PRESS 4 STAGES (3.0M) ----- × 1 UNIT
- HOT ELECTRIC PRESS 2 STAGES (3.0M) (2.5M) ----- × 2 UNIT
- LOWERING ELECTRIC HOT PRESS (4.0M) ----- × 1 UNIT
- COLD PRESSED (4.0M) (2.7M) ----- × 2 UNIT
- WIDE THUNDER ----- × 1 UNIT
- RUNNING SAW ----- × 2 UNIT
- PANEL SAW ----- × 1 UNIT
- EDGE BINDER ----- × 2 UNIT
- FLOTATION MACHINE ----- × 1 UNIT

Zebra straight grain arrow feather match

Sapele straight grain spider web match

SDGs Initiatives

Hiromei Corporation SDGs Declaration

Initiatives for SDGs

Effective use of resources

In order to sustainably use limited legal timber resources, we will work with partner companies to develop new products that make use of off-standard products and remnants, and promote the effective use and loss reduction of timber.

Promotion of carbon neutrality

Wood is a material that gives people a comfortable feeling, such as high heat insulation, humidity control, and less irritation to the eyes. We will contribute to the health promotion of our customers through activities that use a lot of wood in living spaces.

Workplace where you can work with peace of mind

In order to work on employee mental health care, we have an advisory contract with an expert. We will continue to protect the happiness and livelihoods of working people and their families.

Social contributions

We will continue to accept hands-on learning from all over the country to learn the characteristics and goodness of wood, and actively use local wood to contribute to regional revitalization.
